

## **Gallery MRYTA's role**

It's gallery's role that shows the marvelous artists and their works to the people and the society. Today, it seems that people love the things which is pleasant and they are accustomed to, but in fact, we are seeking for a great artist who moves our hearts from the bottom. Then, I met Season Lao.

His works have the beauty that is full of the astonishment and the atmosphere which fascinates anyone. He continues challenging in the way that anybody has never tried, with his great originality. He is the best artist that the Gallery MORYTA had been looking for.

In our gallery people look at his works with pure eyes. I believe that we could have rich lives in the world which gives the true evaluation to the beauty without any lies. To create such a world, galleries and artists own the mission to produce appropriate estimation. We, GALLERY MORITA will continue introducing mainly Season Lao and his works to the people who seeks for something as possible.

We also willing to produce the young talents who follow the way of living like him. The role of Gallery MORYTA is to show the work of gifted artists to society.

Today, people seem content with 'art' they're accustomed to and makes them 'feel good'. We, however, are interested in artists who move our spirit and challenge our minds with a beautiful vision.

For example, the work of Season Lao is so original, full of atmosphere, and constantly moving in new directions. His style could appeal to anyone, yet he's known by a select, core audience.

It's an honour to support artists whom we admire . We will continue to offer strong support to these individuals, as well as to young artists who have the potential to enrich our lives with their unique talent.
